## Farmers Driven Climate Change Agenda

World Farmers' Organisation (WFO) and the International Fertilizer Association (IFA)

### COP26 OFFICIAL SIDE EVENT

## The Climakers: Presenting the Toolkit for a Farmer- Driven Implementation of NDCs

3 NOVEMBER 2021, 16:45-18:00 GMT

### Event description:

Three years after the launch of the Farmer - Driven Climate Change Agenda at COP24, The Climakers will take stock of the progress made in amplifying farmers' needs and solutions to climate change, by presenting a "NDCs Toolkit" as guidelines to policymakers on integrating agriculture into the national fulfilment of the Paris Agreement.

Reflecting on the experiences collected through regional consultations, surveys and case studies, the Climakers will present farmers' priorities for governments, helping them to implement climate-smart and farmer-driven Nationally Determined Contributions (NDCs).

### Program:

- **Setting the scene by the moderator**
  - *Alzbeta Klein*, Director General, International Fertilizer Association
- **Opening remarks**
  - *Theo de Jager*, President, World Farmers' Organization, WFO
